DEPARTMENT OF ANAESTHESIOLOGY	1. Professor	1	Associate professor	1. Dr. sathish logadasan	1. percutaneous tracheostomy using combined Griggs and Ciaglia technique with Fibreoptic guidance . A prospective observation study		
					2. Invasive aspergillosis following Liver transplantation and its successful management		
					3. Acute moderate normovolemic hemodilution is major elective orthopaedic surgeries - A prospective study		
					4. Thromboelastography parameters suggestive of hypercoagulability and its correlation in liver transplantation - A retrospective study		
	2. Associate professor	2	Associate professor	2. Dr. Kalaiselasi	1. A prospective study for evaluating the effectiveness and safety of two state strategies , PSV and T piece ventilation for weaning adult patients from mechanical ventilator		
					2. A prospective study to compare the effectiveness of prophylactic granisetron vs. pethidine for the prevention of postoperative shivering in patients undergoing electro thyroid surgeries		
	3. Assistant Professor	3	1. Dr. Ruba	1. Comparison of varying dose of dexmedetomidine to attenuate response in adults			
	4. Tutor	4					
	5. Senior Resident	5					
	6. Junior Resident	6					
	7. Post graduate-Final year	7					
	8. Post graduate-Second year	8					
	9. Post graduate-First year	9					
	10. MBBS Students-ICMR STS	10
